PERSONAL SUMMARY

I am an IT student, I learned various programming languages, including Python, PHP, and JS, and gained a strong understanding of web development. I was also active in various projects and study groups, which helped me develop my teamwork and problem solving skills.

EDUCATION

Bina Insani University

(2021 - Now)

Informatics Engineering, Faculty of Informatics - GPA 3.62

Experience Project

Development of a game-based learning website for learning.

Studi Independen Educourse.Id (Feb 2024 - Now)

- Teamwork Conduct a needs analysis to understand the desired features and functions of the EDUGAME website.
- Designed an intuitive and engaging user interface (UI) for the EDUGAME platform.
- Using UX design principles to ensure an optimal user experience.
- Develop website backends using the Django framework.
- Using Django to manage routing, models, views, and templates.
- Set up servers, databases needed for site functionality.

Development of a web-based information system for wafod data management.

Bina Insani University(Feb- Juni 2023)

- Teamwork Coordinate tasks between team members and hold weekly meetings for progress evaluation.
- Assist in the division of tasks based on each member's expertise.
- Performed user requirements analysis and drafted technical specification documentation.
- Design scalable and efficient system architecture.
- Design a responsive and user-friendly user interface using Figma.
- Developed the system backend using CodeIgniter and integrated MySQL database.
- Testing integration between components to ensure the website is running properly.

Development Website-Based Shoe Sales Information System

Bina Insani University(Okt 2022- Jan 2023)

- Teamwork Coordinate tasks between team members according to their respective expertise.
- Create data and process flow diagrams for the system.
- Develop functional and technical specifications for system development.
- Write HTML, CSS, and JavaScript code to implement the UI design.
- Write PHP code to manage data, business processes, and database interactions.
- Integrate the system with the database using MySQL.

SKILL

Harsd Skill :

- Programming Languages: PHP, HTML, CSS, JavaScript, Python
- Frameworks and Libraries: Bootstrap, jQuery, CodeIgneter 3 , Django, React
- Database Management: MySQL
- Tools and Platforms: Git, Visual Studio Code, Figma

Soft Skill :

- Teamwork
- Problem Solving
- Analytical thinking
- Time management

CERTIFICATION

Junior Web Developer

Lembaga Sertifikasi Profesi Informatika (LSPI)

(Juni - Sep 2022)

- Implementing User Interface
- Implement Text, Graphics, and Multimedia-based Programming Language Execution Commands
- Arrange Functions, Files or Other Programming Resources in a Neat Organization
- Writing Code in accordance with Guidelines and Best Practices
- Implement Structured Programming
- Use Pre-Existing Libraries or Components

Link Certificate :

Software Engineering

Lembaga Sertifikasi Profesi (LSP)

(Feb - Mei 2022)

- Use Pre-Existing Libraries or Components
- Using Data Structures
- Implementing The User Interface
- Implementing Structured Programming
- Implementing Object Oriented Programming
- Carry Out Software Configuration According To Environment Development, Staging, Production

Link Certificate :
